

SureFoot[®]

Barn Calcite

QUALITY MINERAL PRODUCTS ENRICHING OUR DAILY LIFE

SureFoot non-slip white limestone, also known as barn calcite, has numerous uses in the farm setting. It provides animals with better traction on slick surfaces. Good footing is important for minimizing injuries and maximizing breeding efficiency. When installed properly, SureFoot functions as a slip-proof, absorbent, resilient, and easy to clean flooring material in barn stalls. It also helps minimize odors and insects when applied underneath fresh shavings.
